Professional Summary

Frontend Developer with expertise in **Next.js, React, and Firebase**, skilled at building responsive, user-friendly web applications. Experienced in designing modern interfaces with **Tailwind CSS** and **Framer Motion**, while integrating backend services for seamless functionality. Passionate about applying **AI solutions** to real-world problems and continuously learning emerging technologies.

Education

- **Bachelor of Informatics (Semester 7 | GPA 3.84)** — Politeknik Negeri Jakarta (2023 – Present)
 - **Collaborative Program** — CCIT FT University of Indonesia (2023 - 2025 | GPA 3.21)
-

Certifications

- Huawei Certification — Overview of AI (Indonesian)
 - Huawei Certification — HCIA-AI V4.0 Course
 - Huawei Certification — Python Programming Basics
 - TOEFL (EPT) — Score 577
 - CCIT Certificate — Software Development Fundamentals
-

Technical Skills

- Languages: JavaScript, TypeScript, Java, Python, SQL, HTML, CSS
 - Frontend: React, Next.js, Tailwind CSS, Shadcn/UI, Magic UI, Framer Motion, Drive.js
 - Backend: Node.js, Firebase
 - Database: Firebase Realtime Database, MySQL
 - **Tools:** Git, GitHub, Figma, Android Studio, VS Code, Docker, Balsamiq
-

Projects & Experience

- **Ventara — AI Wind Power Forecasting Dashboard**
 - Built a responsive AI forecasting dashboard using Next.js, TypeScript, and TailwindCSS.
 - Integrated backend APIs and authentication to enable secure access to forecasting data
 - Developed reusable UI components and interactive animations to enhance user experiences
- **Simjur — Digital Event Proposal Management System**
 - Developed a responsive web application using React, TypeScript, Tailwind CSS, and Supabase.
 - Built features for students to submit and track event proposals digitally, reducing manual paperwork.
 - Integrated authentication and database services with Supabase for secure user management and real-time data handling.
 - Designed a clean and responsive user interface to streamline the proposal submission and approval workflow.
- **FoodEase — Nutrition-based Food Ordering App**
 - Designed a nutrition-focused food ordering application with calorie tracking features.
 - Created wireframes, UI mockups, and interactive prototypes using Figma, Canva, and Balsamiq.
 - Collaborated on feature planning and user experience design for health-conscious food selection.

Languages

- Indonesian — Native
- English — Upper Intermediate (TOEFL 577)
