SUMMARY

Frontend Developer with experience building responsive and maintainable web applications using Next.js, React, and TypeScript. Proficient in developing reusable UI components, implementing responsive interfaces with Tailwind CSS, and creating interactive user experiences using Framer Motion. Strong understanding of modern frontend development practices, component-based architecture, and responsive design principles, with a focus on delivering clean, consistent, and user-friendly web applications.

WORK & PROJECT EXPERIENCE

WEBSITE TESTER (INTERNSHIP / QA)

July 2025 – Nov 2025

Internal Project — Amstel Broker Company

- Identified UI/UX issues during testing and collaborated with the development team to improve website usability.
- Updated and maintained client files.

FRONTEND DEVELOPER (PROJECT)

Ventara — AI Wind Power Forecasting Dashboard

- Developed responsive and reusable frontend components using Next.js, React, and TypeScript.
- Created interactive user onboarding using Drive.js to improve first-time user navigation and feature discovery.
- Optimized UI using Tailwind CSS and Framer Motion.
- Collaborated with team members to translate UI/UX designs into production-ready interfaces.

Next.js · React · TypeScript · Tailwind CSS · Framer Motion · Drive.js
